

## **Dress Code**

We ask all students to continue to wear clothing that is appropriate to an elementary school setting. It is important that we maintain a safe and respectful learning and teaching environment. Clothing which is suitable for the beach is not acceptable in the school. We appreciate your support as we work together to assist students to develop good judgement in their clothing choices. Bare midriffs, bare backs, offensive T-shirt slogans or those advertising violence, discrimination, smoking, drugs or alcohol are unsuitable for the school environment. Hats and visors must be removed as students enter the building.

- Exceptions to the dress code can be made for individual students for medical or religious reasons by the principal

**Please note that we have a number of students with asthma and that aerosol deodorant, body spray or perfume should not come to school. We are a fragrance free school.**
